## Germany Must Answer "Yes" Or "No" By May 12 Or Allied Armies Will Advance

## COLUMBUS THEATERS ROBBED

COLUMBUS, O., May 2.—Box offices of three downtown theaters were robbed of more than \$1,000 early this morning by burglars, who bound and gagged night watchmen and blew open the safes. Theaters robbed were Keith's, the Colonial and the James. The same band of robbers also is believed to have robbed Eitel's pharmacy in Mt. Vernon avenue.

Police could not ascertain early this morning the exact amount of the loot stolen. However, Keith's theater announced that approximately \$1,000 had been obtained from their safe, and it is known that some money was obtained from the other safes robbed.

Later, according to police reports, the robbers entered the Eitel's home, where they bound and gagged two negro porters, while they ransacked the building. Only personal property belonging to the manager was taken.

Patrolman Clifford Tilton entered the James theater to make a telephone report and was covered with revolvers by two of the robbers. His gun and money were taken away from him and he was held a prisoner, while the robbers attempted to blow the safes in the office.

Later information received by the police indicated that 13 men were in the band of robbers that blew the three theater safes and robbed the Eitel's home. Later information placed the amount of the loot at well over \$3,000 in cash and some bonds.

An abandoned automobile, supposed to have been used by the gang, was found in the downtown section this morning.

## New Ultimatum Is To Be Handed Berlin

LONDON, May 2.—Germany must give by May 12 a categorical answer—yes or no—to the allied reparations demands, or suffer the infliction of military and naval penalties, according to the terms of an ultimatum drawn up by the allied foreign ministers today and submitted to the supreme council for its approval.

The swift movement of events in the reparations issue between the allied powers and Germany was shown in this series of developments:

The allied foreign ministers first met and completed the draft of the ultimatum, which provided that Germany should be advised of the allied terms four days from today, and then would have six days or until May 12, within which to give an answer, yes or no, without conditions, the negotiations being considered at an end.

A British naval demonstration in the North Sea was stated to be one of the consequences to follow a refusal by the Germans to yield to the allied demands.

The supreme council did not finally act on the ultimatum, but adjourned, after an hour's consideration of it until 5 p. m.

Word was received here that M. Jassard, French ambassador to the United States, had had an informal talk with Secretary of State Hughes.

Secretary Hughes, the ambassador reported, said in substance, that America did not wish to take any attitude that would irritate the allied governments. He hoped, he was quoted as adding, that military advances, such as an occupation of the Ruhr valley, would be avoided, as such action seemed like war.

Word from Paris showed that the French military forces were making preliminary moves looking to the occupation of the Ruhr, in anticipation of official quarters there that Germany would not give the guarantees the allies were expected to demand, and that the occupation consequently would have to be carried out. It was indicated the mobilization of 150,000 men of the class of 1919 was imminent.

LONDON, May 2.—The allied supreme council, after receiving the report of the council of foreign ministers today, agreed in principle to the plan of Foreign Minister Jassard, of Belgium, providing for an ultimatum to be presented to Germany and for military measures to be used in case Germany should default.

The terms of the ultimatum were being discussed this afternoon by allied experts, who were to report to the supreme council at 5 p. m.

The terms already agreed upon include provision for guarantees and for penalties to be enforced from time to time should Germany fail to meet the conditions.

## NO CHANCE OF U. S. LETTING GERMANY ASSUME ALLIED DEBT

BY DAVID LAWRENCE  
(Copyright, 1921, by Times Pub. Co.)  
WASHINGTON, May 2.—Though the United States Government has thus far avoided any comment on the merits of the latest German proposal on reparations, there is one paragraph in the note upon which the Allied governments would like an answer from Washington, be it official, unofficial, informal, oral or conveyed in any other diplomatic language available. It is the paragraph in which Germany formally expresses her willingness to assume the Allied indebtedness to the United States approximating ten billion dollars. Germany says on this point:

"In case the United States and the Allies should so desire, Germany would be disposed to take over to the limit of her capacity the payment of the Allied obligations to the United States on account of their debt to the latter."

Allies Willing to Accept It  
The Allies are perfectly willing. They always have been. They would gladly transfer the debt they owe the United States to the backs of the Germans. The preceding administration agreed to submit a similar proposition with respect to the Belgian debt but this has never been acted upon by our Congress. Now the question arises whether the German suggestion meets with the American Government's approval.

The Allies have insisted that the United States in transmitting any German proposal acquired a certain responsibility for the fulfillment by Germany of her promises. Now it is declared if the United States transmits the German note as a "suitable basis" for negotiation, America tacitly admits that she will consider the transference of the Allied debt owed America to the Germans for payment.

Congress Opposed to It  
Sentiment inside Congress is strongly against any such transference and President Harding has been known to hold the view that the foreign loans made by the United States to the Allies were a valued asset. There isn't the slightest chance of America's accepting the German proposal.

## "QUIET MAY DAY GIVES ASSURANCES OF RETURN TO NORMAL CONDITIONS"

—SAYS ATTORNEY GENERAL HARRY M. DAUGHERTY

WASHINGTON, D. C., May 2.—May Day passed quietly all over the country, the department of justice reported. No disturbances of moment were reported from foreign countries.

COLUMBUS, O., May 2.—Quiet observance of May Day throughout the United States, despite attempts to agitate demonstrations through the distribution of literature, "gives assurance of the return to normal conditions in America," said a statement issued here today by Attorney General Harry M. Daugherty.

The attorney general announced that reports to the department of justice from every section of the country showed a widespread quietude and calmness prevailing. He declared that yesterday had been a typical "American Sunday."

Has Faith In America  
Mr. Daugherty's statement said he had been urged to issue a general public warning against announced demonstrations, as has been customary with the department of justice the last several years, but that he had refused to do so.

"My idea was," the statement said, "that if a general warning were given, it would invite, rather than prevent demonstrations. I believe it is best not to agitate the agitator. The country is settling down to a patriotic program. Disturbances of the character threatened, would not be popular anywhere. I think we need less watching and more working in this country."

"I would not say that it is perfectly safe to leave the smokehouse door open, but we are back to normal, almost, as the president of the United States would say, and we have reason to be proud of ourselves."

Daugherty's Statement  
Mr. Daugherty's statement was as follows:

"For a month the department of justice has been receiving from many parts of the country samples of literature purporting to be sent out for the purpose of agitating some prospective May Day demonstrations. A very strong demand was made upon me to issue a general public warning against such demonstrations."

## Newberry Thankful Good Name Of Michigan Cleared

Two views of Truman H. Newberry.

DETROIT, May 2.—"I am thankful that the good name of the state of Michigan has been absolutely cleared," said United States Senator Truman H. Newberry, upon learning today of the decision of the supreme court reversing the verdict of the district court in the election conspiracy case.

"I am thankful," he added, "that those who were associated with me have been vindicated, and that the confidence of my thousands of loyal friends has been confirmed."

## Democrats Plan Referendum On Governor Davis' Reorganization Act

COLUMBUS, O., May 2.—A meeting of the Democratic state central and executive committees and county chairmen will be held in Columbus Thursday afternoon for the purpose of making plans for obtaining a referendum on the state reorganization act, sponsored by Governor Davis and passed recently by the legislature.

In announcing the meeting, Democratic state headquarters announced that the emergency clause on the act will be attacked in the courts, and that efforts will be made to obtain sufficient signatures to a petition calling for a referendum upon the act itself.

A statement issued by the headquarters said:

"The emergency clause will be attacked in the courts, it being the opinion of the Democratic leadership that the 'peace, health and safety' of the people of Ohio are more menaced by the bill than without it. . . . The Democratic party opposes the bill itself because it is not the result of sincere, impartial and unbiased effort to reform Ohio's governmental agencies. . . . Governor Davis desires to become the political czar of Ohio. He will achieve his ambition if the bill becomes a law."

## TIE-UP OF THE AMERICAN SHIPPING IS PREDICTED

NEW YORK, May 2.—Union leaders predicted today that the walk-out of marine workers called yesterday as a protest against fifteen percent wage reductions would result within 24 hours in a complete tie-up of American shipping.

"News of the walk-out decision was wireless to all ships flying the American flag yesterday after the International Seamen's Union, the Marine Firemen, Oilers and Water Tenders' Union and the Marine Engineers' Union had voted to resign their jobs rather than accept the cut."

It is estimated that about 125,000 workers are affected by the walk-out.

WASHINGTON, D. C., May 2.—President Harding was expected to clear up today the reported confusion growing out of the request of marine union heads that he name a commission to mediate in the seamen's wage controversy which threatens to tie up shipping at all American ports. According to White House statements last night, it was said that ultimate disposition of the problem had been placed in the hands of Secretary of Commerce Hoover and Secretary of Labor Davis and it was the understanding that these two would select a third person to serve with them as a wage commission. However, at the labor department it was said that Secretary Davis had not been so informed by the president and so far as the naming of a commission was concerned the matter was still in his hands.

Shipping board officials, it is stated, have said they would follow the wishes of the president, if he desired a wage commission to mediate, as asked by the unions, and the next day.

## SUPREME COURT HOLDS CONGRESS WITHOUT POWER TO REGULATE PRIMARIES

WASHINGTON, D. C., May 2.—Conviction of United States Senator Truman H. Newberry in federal courts in Michigan for conspiracy to violate the federal corrupt practices act was set aside today by the supreme court. The conviction of sixteen other defendants also was set aside. The court held that congress was without power to regulate primaries.

Justice McReynolds read the opinion to which Justice McKenna dissented as to the power of congress, but agreed as to the decision.

Chief Justice White also dissented from the decision that congress did not have power to control all elections, but agreed that the statute had been "grossly misconstrued."

Justice McReynolds said that the lower court erred in dismissing the demurrer of the defendants.

"Obviously the corrupt practices act covers also the primaries and other preliminary acts preceding an election," the court said. "The one question here is whether congress may limit expenditures of a candidate. The source of such power is in Section 4, Article I of the constitution. This gives congress the power of regulating the 'manner of holding elections' and not of 'elections.'"

Chief Justice White in his dissenting opinion traced in detail the growth of the election system to show that congress was given the power under the constitution to regulate senatorial elections.

"It is essentially a federal matter, not existing before the constitution," said he.

## 44 HOUR WEEK STARTS IN PRINTING INDUSTRY; MANY STRIKES CALLED

CHICAGO, May 2.—Acceptance by employers in many of the larger cities of the 44-hour week in the printing industry today appeared to have averted a nation-wide strike in book and job printing shops, although isolated strikes in newspaper plants and job printing offices had been called to take effect today. Local officials of the International Typographical Union were authorized by international headquarters to call strikes where employers refused to concede the 44-hour week and in a number of the cities shops were suspended by strikes of printers. In several cities strike votes also were being taken by pressmen and other unions allied in the printing industry.

About 250 locals throughout the country had signed the 44-hour work contracts with some of the employers. It was announced that international headquarters, including job shops in Chicago, New York, Cincinnati, Milwaukee and Indianapolis, and in several cities of the west and south, strikes were expected today.

Members of "big six" local of the International Typographical Union, of New York City, voted to defer institution of the 44-hour week for one week, when it is expected to be inaugurated without friction.

No announcement was made at international headquarters of the typographical union at Indianapolis of the results of the conference with Secretary of Labor Davis and employing printers at Washington. International officials of the union were expected to return today to Indianapolis. Cleveland printers threatened to walk-out today unless the 44-hour week is granted by employers when the men report for work today.

Employers say that 10,000 or more men employed in other trades connected with the building industry, but not affiliated with the trades council, will be thrown out of work by the strike. More than 1,000 men, members of the commercial printing department of the International Typographical Union, went on strike here this morning, when their demands for a 44-hour week were refused by master printers.

## Over 25,000 Leave Jobs In Cleveland

CLEVELAND, O., May 2.—Between 25,000 and 30,000 men employed in more than twenty crafts affiliated with the Building Trades Council left their jobs this morning after reporting for work on building contracts controlled by the Cleveland Building Trades Employers' Association. The men's demand for a continuance of the wage scale for the year ending yesterday was not met by the employers, who insist that a new schedule proposing a twenty percent wage cut shall go into effect at once.

Labor leaders in the building trades say they will continue in their efforts to obtain separate agreements with employers and will return to work separately as the agreements are reached. The employers say they will stand as a unit, to enforce the new wage schedule.

Employers say that 10,000 or more men employed in other trades connected with the building industry, but not affiliated with the trades council, will be thrown out of work by the strike. More than 1,000 men, members of the commercial printing department of the International Typographical Union, went on strike here this morning, when their demands for a 44-hour week were refused by master printers.

Also \$250 was transferred from the light fund to form a fund for the maintenance of the various light lines. Action was also taken for a light line to the residences in Wood-Coffman addition. The line will be run from the line going to the disposal plant. Drains of the sewer line lying between Jackson and Vaughn streets and surrounding area was taken up and Engineer Campbell given power to see if this land could be drained. Attorney E. E. Eubanks asked for the Jackson Water Works that the Council take some action on paying for the rent for the fire hydrants.

### Court News

The case of Elmer B. Swanson vs. The Baltimore and Ohio Railroad Company was filed in the Common Pleas court April 26, 1921. This was formerly in the Justice's court. The plaintiff says that he was the owner of a four year old pony valued at \$125. That he had the pony on the land of E. B. Dickason on December 26th, 1919, and that the pony strayed upon the line of the railroad and was run against by a locomotive and was injured and had a leg broken and was otherwise injured and had to be killed. Judgment is asked in the sum of \$125 with interest at six percent from Dec. 26, 1919, because the defendant had neglected to maintain a fence sufficient to turn stock from going upon the railroad. John Robbins is attorney for the plaintiff.

May 7th Jackson Worstell of Athens will be in Jackson to hear the demurrer filed in the case of J. E. McClung vs. E. E. et al. vs. The Jackson Iron and Steel company. John Harper, attorney for the plaintiff, D. E. Morgan and E. E. Eubanks, attorneys for the defendant.

#### Seeks Construction of Will

Construction of the will of the late Nicholas Nisius, aged Bucina Vista man, who died at his home in that village on April 1, 1921, so far as its provisions may be ambiguous, is sought in a petition filed in Common Pleas court Monday by Minnie Nisius, executrix against Anna Marie Nisius, widow, and Joseph, Peter and Michael Nisius and Anna Sullivan children and heirs at law of the decedent.

The plaintiff in her petition filed through Attorney B. F. Kimble says that certain questions have arisen and arise in connection with the disposal of the estate, which can be properly determined only by the decree of the court, and declares she believes that it is necessary for the proper execution of her duties that she receive the necessary instructions of the court.

#### Well, They're Inevitable

Collection of the annual June taxes started at the County Treasurer's office Monday morning with a rush, many taxpayers taking advantage of the early opening of the tax books to come in to pay their rent.

The books are open for the payment of taxes in all districts of the city and county Treasurer Gilbert P. Dadds urges customers to bring old receipts so as to facilitate the handling of the business, especially during the rush hours.

#### Holding Court at Waverly

Judge Will P. Stephenson, of West Union was in the city over Sunday leaving Monday for Waverly to hold court for a couple of days during which time he will hear a number of cases on the Pike County Common Pleas court special docket.

The Adams county jurist was accompanied to the Pike county seat by Attorneys A. Z. Blair, Theo. K. Funk and L. A. Thompson for the purpose of appearing in the trial of a case there.

#### New and Old Time at Court House

Announcement was made Monday that the offices at the Court House will be operated on the same old hours, from 8 a. m. to 5 p. m. but the hours of holding Common Pleas court were ordered changed from 8 a. m. to 4 p. m. by Judge Thomas to conform with the new time although the hands of the clock in the court room were not moved forward and it will continue to register Central Time.

#### Appellate Court Coming

Judges Edwin D. Sarge, of Athens; William H. Middleton of Waverly and Reese J. March of Gallipolis, of the Court of Appeals for the Fourth Judicial District, are expected to arrive in the city Tuesday evening and on Wednesday will hold a session of court here. During its stay here the court will hear several cases left over from the regular term in March and any other matters which the attorneys desire to submit.

The court will go from here to West Union to hold the regular May term of court and thence to Georgetown to hear a docket.

#### Plaintiff Granted Divorce

Naamie Wrigglessworth, of Court Street, was granted a decree by Judge Thomas in Common Pleas court Monday, divorcing her from John Wrigglessworth, 617 Front street, after the latter appeared to testify in his own behalf. He admitted that the charges of neglect and desertion made by the wife were true, explaining to the court that they simply could not get along peacefully and declaring that he thought it best for him to leave, which he did in less than two years after the marriage in October 1916.

The plaintiff was represented by Attorney Mark A. Crawford.

#### Naturalization Petition Filed

Giuseppe Cavalla, a native of Sunny Italy, where he was born May 24,

1886, filed his petition for naturalization in Common Pleas court Monday. Cavalla, who is a laborer and lives at 2222 Plum street, emigrated to the United States on March 4, 1914.

**Convicted of Non-Support; Fined**  
Thomas Montgomery, New Boston barber, was taken into custody and brought into probate court Monday to meet a charge of non-support of his minor child and the hearing resulted in the conviction of the accused, Judge Gilliland imposed a fine of \$50 and costs, which Montgomery expected his friends to come to his rescue and pay.

The complaint was filed by Mrs. Florence Montgomery, wife of the defendant.

#### Canvas of Returns Commences

Russell White was appointed a deputy assessor for the Third Ward by Roy H. Coburn and he started work Monday with a number of assessors.

#### Adoption Approved

With the approval of the probate court, Mr. and Mrs. Isaac Eldridge, Schotville, Monday legally adopted as their own child, Alice May Eldridge, 5 years old. John Eldridge, father of the child, is dead, and her mother, now Anna Wood, having since re-married, gave her consent to the adoption in open court.

## L. P. HALDEMAN AND J. N. TAYLOR'S AUTOS COLLIDE ON THE SCIOTO TRAIL

Automobiles driven by L. P. Halde-  
man of this city and J. N. Taylor of  
Middletown were damaged considerably  
Sunday evening when they col-  
lided on the Scioto Trail, two miles  
this side of Lucasville.

Both machines left the road. Mr.  
Taylor's car turning over twice. Mr.  
Halde-man's car plunged down an eight  
foot embankment, but it did not over-

turn. The left front wheel of the  
machine was smashed.  
The top of Mr. Taylor's car was  
smashed and the radiator and both  
rear fenders were damaged. He said  
last night that his car was just out of  
the shop after being repainted and  
overhauled. Mr. Halde-man was going  
north on the Trail and Mr. Taylor  
was driving to this city when their  
cars collided. Mr. Halde-man says  
his left rear fender must have struck  
the Taylor car and when this occurred

his car swerved to the left off the  
road and Mr. Taylor's to the right.  
He escaped without a scratch. Mr.  
Taylor suffered a slight cut under  
his right eye. He was accompanied  
by his wife and they had a miraculous  
escape from serious injuries as their  
machine actually rolled over twice.  
However, the engine was not damaged  
and the car was driven to the city  
under its own power. Mr. Halde-man  
was on his way to the Bannan farm  
to pick up members of his family  
when the accident occurred.

## Feel Old?

Overwork, worry, anxiety or sorrow  
undermines strength and health. These  
causes contribute to kidney trouble, and  
weak or diseased kidneys make one  
feel old in middle age.

## Foley Kidney Pills

help weak, overworked or diseased kid-  
neys and bladder so that the system is  
free from waste and poisonous matter  
that causes one to feel old, tired, lan-  
guid. They banish backache, rheu-  
matic pains, sore muscles, stiff joints.  
Mrs. J. D. Miller, Syracuse, N. Y., writes:  
"For many years I suffered with kidney trouble  
and bladder, and where I used to be  
awake at night with rheumatic pains I can now  
sleep in comfort and enjoy a good night's rest."

## C. & O. Men Will Return To Work

HUNTINGTON, W. VA., May 2.—  
It was learned yesterday that within  
the present week the forces at the  
Chesapeake & Ohio shops in Hunting-  
ton will be considerably enlarged by  
the recall of another section of men  
held off a few weeks ago.

While definite figures were not  
available, there was a confirmed im-  
pression that the number would con-  
siderably exceed one hundred and  
would probably reach one hundred  
and fifty.

## Ingrown Nail Turns Right Out

A few drops of "Outgro" upon the  
skin surrounding the ingrowing nail  
reduces inflammation and pain and so  
toughens the tender, sensitive skin un-  
derneath the nail that it can not  
penetrate the flesh, and the nail turns  
naturally outward almost overnight.

"Outgro" is a harmless, antiseptic  
manufactured for chiropodists. How-  
ever, anyone can buy from the drug  
store a tiny bottle containing direc-  
tions.—adv.

## Calls At Bank For Money; Pike County Boy Arrested

"No-To-Bac" has helped thousands  
to break the costly, nerve-shattering  
tobacco habit. Whenever you have a  
longing for a cigarette, cigar, pipe, or  
for a chew, just place a harmless No-  
To-Bac tablet in your mouth instead,  
to help relieve that awful desire.  
Shortly the habit may be completely  
broken, and you are better off men-  
tally, physically, financially. It's so  
easy, so simple. Get a box of No-To-  
Bac and if it doesn't release you from  
all craving for tobacco in any form,  
your druggist will refund your money  
without question.

## Ascension Day Observed By Calvary Commandry

More than one hundred members of  
Calvary Commandry, No. 13 attended  
"Ascension Day" services at the First  
Christian Church, Sunday evening.  
He listened attentively to an approp-  
riate sermon by the pastor, Sir  
Knight Charles R. Gasker, who broke  
local ministerial tradition by appear-  
ing in the pulpit in full uniform.

The members of the commandry as-  
sembled at the church at 8:15 and in  
charge of Captain General William F.  
Zollmann, marched to the church in  
a body, their handsome uniforms, set  
off by plumes and sword, made a  
most imposing picture. The color  
bearers led the way, followed by the  
Emminent Commander Frank M.  
Bagges. The past commanders fol-  
lowed while the Sir Knights brought  
up the rear. The entire center section  
of the church was reserved for the  
distinguished guests.

The spacious church building was  
completely filled and the services were  
quite inspiring. Following congrega-  
tional singing, the audience was fa-  
vored by numbers by the ladies and men  
quartette. The ladies quartette is  
composed of Mesdames Charles Brock,  
John and Elmer Fetter and Misses  
Marjorie Gerlach and Less True. The  
personnel of the male quartette is as

follows: Messrs. Earl Reinhard, Elmer  
Fetter, Walter Adams and Charles M.  
Howland. Preceding the special num-  
bers, the big chorus under the direc-  
tion of Elmer Fetter, led the congre-  
gation through several songs. The  
favorite of all Sir Knights, "Onward  
Christian Soldiers" was sung, in  
which the members of the comman-  
dry joined in with vigor.

Following the song services, the Sir  
Knights, under the leadership of the  
late John Fetter, held their devotion-  
al exercises, which were very impres-  
sive.

Rev. Oakley complimented the Sir  
Knights upon their splendid appear-  
ance and paid high tribute to the pri-  
ncipals of the organization. He stated  
that the organization was akin to  
the church and explained how the or-  
der was founded on the birth, death,  
resurrection and ascension of Jesus  
Christ. His sermon was logical and  
while mostly of an argumentative na-  
ture, left no doubt in the minds of  
all of the divinity of Christ. Rev.  
Oakley was eloquent and fervent and  
at the conclusion of the services was  
warmly felicitated upon the excellence  
of his address and the song service as  
well.

## Swimming Class Open Tuesday

The swimming classes to be con-  
ducted for the Girl Scouts and the  
girls at the Community Club, under  
the auspices of the Bureau of Com-  
munity Service, will be open Tuesday  
at the Auditorium from 3:30 to 5:30  
p. m., and from 7:00 until 10:00.  
The admission is twenty-five cents, but all  
members are urged to come and will be  
admitted free of charge.

Classes are in charge of Miss Mary  
Griffin, Girl Scout director, who has

passed the United States Life Saving  
Corps examinations, and Mrs. Lewis  
Adams. The water is kept at eighty  
degrees, the right temperature for  
swimming, and the pool is divided by  
a rope, keeping the shallow from the  
deep water. Only experienced swim-  
mers are permitted to go into the deep  
water and then under the supervision  
of one of the teachers. The mothers  
are assured that the girls will be  
carefully looked after, and are wel-  
come to accompany them at any time.

## Express Regret Over Local Ministers Leaving The City

Deep regrets were expressed this  
morning at the meeting of the Minis-  
terial Association over the determina-  
tion of their president, Rev. Dr.  
George P. Horst, to leave the city. A  
farewell banquet will be arranged in  
his honor, within the next two weeks,  
to include the ministers and their  
wives. The time for the banquet will  
be set for the convenience of Dr.  
Horst.

Resolutions were ordered drawn to  
set forth the loss on the part of the  
Association of its President, said res-  
olutions to also include the names of

Rev. Carroll Stewart, Rev. G. E.  
Libby and Rev. Harry W. Buck, all  
of whom have recently left the city.

### Few Artists Paint the Cat.

The beauty of the cat is very de-  
ceptive, for under the grace of the  
furry exterior lie concealed steel-like  
muscles. Nothing in art is more dif-  
ficult than to draw or paint a cat.  
Those who catch the feline's softness  
usually miss its strength, and vice  
versa. Rosa Bonheur seldom painted  
him, preferring his less subtle brother,  
the lion. Landseer, after two youth-  
ful attempts, threw up the sponge.

Early Bohemians.  
"For heaven's sake, Cupid!  
screamed Venus. "You have gone and  
trimmed your wings! Why, you're a  
most asked!"

## STOP ITCHING ECZEMA

Penetrating, Antiseptic Zemo  
Will Help You  
Never mind how often you have tried  
and failed, you can stop itching, itchy  
eczema quickly by applying Zemo  
furnished by any druggist for 35c.  
Extra large bottle, \$1.00. Healing be-  
gins the moment Zemo is applied. In a  
short time usually every trace of eczema,  
tetter, pimples, rash, blackheads and  
similar skin diseases will be removed.  
For clearing the skin and making it  
vigorous, healthy, always use Zemo, the  
penetrating, antiseptic liquid. It is not a  
greasy salve and it does not stain. When  
others fail it is the one dependable treat-  
ment for skin troubles of all kinds.  
In skin troubles, ordinary soaps are  
irritating and liable to aggravate the  
condition. Use Zemo soap. It is anti-  
septic, soothing, and hastens the pro-  
cess of healing.

# Y. W. C. A. DRIVE IS UNQUALIFIED SUCCESS; POPULAR INSTITUTION TO TAKE ON NEW LIFE

The friends of the Y. W. C. A. will be glad to learn that the official count for the membership appeal showed that 2500 shares of interest have been sold, with more coming in today. For those who may wish to enroll now, the campaign will be held open the remainder of this week.

The Y. W. C. A. in this city, has at present, a more substantial backing than ever before as a result of this membership appeal, which has not been carried on as an intensive campaign, showing that the best element of the town are lending their unselfish support through their desire to keep the "Y" in this community.

From now on, the Y. W. C. A. will endeavor to go forward and all friends are urged to boost it. Immediately plans will be made for complete re-organization and re-establishment of all activities, with the "Y" home a fundamental basis for extending the work into other fields, similar to work carried on in other cities. It is the hope of the board of managers to place the local association along with other interests of the city and to co-operate with them, and in turn ask for their co-operation, as they now feel that with this result, they are justified in going on with the work. As soon as business conditions will permit, plans will be made for a new home building, which is so much needed.

The board wishes to thank all who have faith in the Y. W. C. A., and to thank them for their support, as they feel that the memberships came from those sufficiently interested in the welfare of womanhood, without a personal cause.

Mrs. E. L. Gates, city secretary for this field, arrived in the city this afternoon, and will hold a conference with the board of managers tonight at 7:30 (new time), to go over plans for the future.

## Charter Big Boat

The Portsmouth Lodge of B. P. O. Elks has chartered the palatial steamer East St. Louis for a moonlight excursion on the Ohio here next Monday night, May 3. Indications are that it will be one of the largest excursions of the season.

## PROBLEMS AND HOPES OF IMMIGRANT ARE KNOWN BY DAVIS

James J. Davis, secretary of labor, photographed on inspection trip to Ellis Island and as the artist sees Davis' career.

When Secretary of Labor Davis inspected Ellis Island recently he saw the landing place of the hundreds of thousands of immigrants not alone as a government official but from the eyes of a man who, forty years ago, landed there himself as an immigrant boy, full of vigor and hope for big things for himself. Davis was born in Wales and came to the U. S. when eight years of age. He began work as a choreboy. Later he was newsie, bootblack, messenger, steel worker, and farmer. Then he became governor of Massachusetts, Ill., a town he helped establish.

## SUNDAY SCHOOL ATTENDANCE

Sunday the Sabbath school attendance showed a decrease of 277 from the total of a week ago. The total Sunday was \$105. Several of the schools started on new time and this is given as the reason for a decrease in several of these schools, many coming in late. Sunday's record:	First Christian 1128

## Heideroski Says Blackenski Is Real Musicianski

W. P. Minago, City Editor Times.

Dear Friend Peter:

In our conversation the other day regarding Frank J. Black I meant to ask you to try to find time to give him an interview before the day of his concert.

You'll find he has all the earmarks of a great musician. He has hair like Creator and a disposition like Sousa. He has studied abroad and he can pronounce the names properly of all the well known great European master musicians (which is an art in itself).

In New York City when I present him there (and I may some day) I'm afraid I will have to call him F. J. Blackenski Blackovitch or Blackenski.

But Portsmouth is going to know him as I do, Frank Black. If you can use the above for a story in the Times got to. With best wishes I thank you.

Yours Sincerely,

FRED HEIDER.

## UNITED BRETHREN CALENDAR FOR WEEK

Wednesday, 7:30—Prayer service. Immediately following this service the Senior Christian Endeavor Society will present a Mock Trial entitled, "A Deep Laid Plot to Destroy Christian Endeavor." A large attendance, especially of the older people of the congregation, is urged and those from other churches interested in Christian Endeavor have a cordial invitation.

Thursday, 7:15—The Ladies' Aid Society will meet with Mrs. John Walker, 2022 East Eleventh Street, with Mrs. Mary Provine and Mrs. G. Swaby assisting.

Thursday, 7:30—Choir rehearsal. This will be an important meeting. All who have taken part in the singing during the year are urged to be present at this meeting.

## Cubs Beat So. Webster Team

The New Boston Cubs covered themselves with glory Sunday afternoon, when they won a 6 to 4 fifteen inning game from South Webster at Webster, before a crowd of nearly 1000 fans.

The score was tied 4 to 4 in the ninth and remained that way until the 15th, when two clean hits sent the winning run across the rubber. Sam Mowery pitched a fine game for New Boston with Schwamberger on the receiving end. The Cubs would like to book a game for next Sunday. Call Boston 1 for Manager Frank Hall.

## SAFETY FIRST, CLEAN-UP AND FIRE PREVENTION TO BE DISCUSSED

Safety First, Clean-Up and Fire Prevention will be the subjects discussed at the Chamber of Commerce weekly luncheon Thursday noon at United Brethren church. There will be several speakers on the program with A. H. Bauman, chairman of the Safety Council of Portsmouth, presiding as chairman of the meeting. There will also be a safety first and first aid demonstrations by Boy Scouts. Every member is urged to attend and learn how Portsmouth can be made more beautiful and slightly clean-up week will be observed from Monday May 3, to May 15.

During next week the Boy Scouts of the city will assist in the safety movement by giving demonstrations in the schools, passing posters, etc.

Marked Era in Journalism.

The Edinburgh Review, established in 1802, was the first high-class critical journal to find a permanent footing and achieve success. Its founders were Jeffrey, Scott, Horner, Broughman and Sydney Smith and under them it developed a new era in periodical criticism, having a wider range and more elevated tone than any of its predecessors.

Ancestry Probably Persian.

In the mountains of southern Arabia, a region of tremendous crags and precipices, lives a mysterious tribe of people who are entirely different from the Arabs. They are fairer in color, and live in villages, not tents. They are said to be a relic of the Persian army which invaded the country nearly 1,000 years ago.

# MAY CROWNING AT HOLY REDEEMER AN IMPRESSIVE EVENT LAST NIGHT

The impressive crowning of the Blessed Virgin Mary exercises were conducted in the Holy Redeemer Church Sunday evening and the church was crowded to the doors and many were turned away. These exercises have been held annually for many years. The school children take part in them and as they marched into the church attired in white dresses trimmed with blue ribbon the scene was a most inspiring one. An appropriate sermon was delivered by Rev. J. E. McGuirk and special music added to the solemnity of the occasion.

Before the services C. E. Keen rendered a number of beautiful selections on the chimes.

The children, who performed their part so splendidly in the exercises were drilled by Sister John and her capable assistants.

The program was as follows:

Procession—March—Children.

Hymn—The Ice Bonds of Winter.

Act of Consecration—Young Ladies Sodality.

Hymn—Ave Maria—Miss Martha McGuirk.

Act of Consecration—K. of C.

Act of Consecration—Altar and Rosary Society.

Act of Consecration—C. O. Foresters.

Act of Consecration—Mothers.

Hymn—Bring Flowers of the Fairest—Children.

Act of Consecration—Children.

Crowning—Children.

Prayer—These Prayers and Prayers—Children.

Hymn—Queen of Our Fount—Children.

Sermon—Rev. J. E. McGuirk.

# R. C. Agne To Return

Those who enjoyed hearing Royal Clyde Agne at the Chamber of Commerce luncheon a few weeks ago, will be glad to be reminded of his return engagement at Portsmouth next Sunday evening at the First Presbyterian church. He will give at that time all the interesting details of his war experience in Russia, Syria and the Holy Land, while with the Red Cross, which time forbade his retelling at the luncheon.

Mr. Agne is a most fascinating speaker, as all who heard him can testify, and this address next Sunday night should be one of the best things of the kind in Portsmouth this year. A cordial invitation is extended to the public to attend.

Advantage is being taken of Mr. Agne's coming to the city to use him for a talk on Red Cross work, on which he is an acknowledged expert, and he will speak on that subject at Trinity church on Sunday afternoon, to which all are invited.

## Cardinals Defeated

MANCHESTER, May 2.—The Portsmouth Cardinals lost both games at McCornick atrium Saturday and Sunday.

The score Saturday was 8-4 in favor of the Shamrocks and that of Sunday 9-2. When Collins of the Cardinals was disabled the Shamrocks furnished Edrinkin of the home team to finish the game. The Cardinals are good players, good losers, and a good bunch.

## Wonderful Babylon.

The city of Babylon, when built by Nebuchadnezzar, formed one of the greatest and most magnificent of the world has ever seen. Ancient historians can find no words to describe the grandeur of the palaces, the splendid edifices, large gardens and pleasure grounds, especially the hanging gardens, a sort of lofty terraced structure supporting earth enough to grow trees.

crowd taken to the county jail was J. P. Sater, who conducts a restaurant near Third and Railroad streets. Mr. Sater was evidently not served with the warrant sworn out against him and while he was taken to jail was released without bond or explanation. Nothing was found at his place and it was said last night that he contemplated action for illegal arrest.

## WHY'S AN ARTIST? WHAT'S HIS MISSION? FAMOUS SINGERS DISCUSS MATTER

Miss Dicie Howell and Reinald Werrenrath.

In a symposium of famous artists' opinions, the best definition given by a man on the artist's mission in life, has been accorded Reinald Werrenrath, well known Metropolitan opera baritone. He says: "The artist's mission is to interpret the depth and breadth of the mysterious joys and sorrows of existence, real and imaginary, through his profession." Miss Dicie Howell urges gradual elevation of the public to appreciation of the old classics by first giving them music they understand. She urges the singing of songs in English.

## Next Sunday Mother's Day

COLUMBUS, O., May 2.—Governor Davis today issued a proclamation designating next Sunday, May 8, as Mother's Day. The proclamation is as follows:

"Whereas, it is to the influence, devotion, unselfishness and love of mothers that the world owes most of its good and humane accomplishments, and

"Whereas, by her nobility of character she has preserved and nurtured the worthwhile things of life, and, whereas, we owe her a deep and lasting debt of gratitude which can never be repaid;

"I, therefore, as Governor of Ohio, proclaim Sunday, May 8, 1921, as Mother's Day, and earnestly and respectfully request observances throughout the state, with proper exercises in all churches and in all public places by a general display of the flag of the United States and by the wearing of one's mother's favorite flower."

## Rotarians Hear Discussion Of Tax Problems By Mayor

Mayor William N. Gableman was the speaker at the weekly luncheon of the Rotary club held at the Elks parlors. President Conroy turned the meeting over to John C. Bauer as chairman for the day and Mr. Bauer introduced Mayor Gableman as a conscientious, earnest and honest official who was trying to do his duty and trying to operate the city upon the money in sight. Mayor Gableman was given a warm reception and thereupon proceeded with an exhaustive talk upon taxation. He showed how taxes were levied, how they were divided among the various divisions, such as state, county, schools and city. His talk was illustrated by large charts, which made every point clear. It was shown that while Portsmouth paid \$2 on every \$100 in taxes the city itself only got a little over 51 per cent of this sum and of this almost one-half was required for the sinking fund to pay interest and retire bonded indebtedness incurred in past years.

Mayor Gableman stated that the city would be operated this year without its income and no deficiency bonds would be necessary. He also said that the efficiency of the hospital management had been such that no hospital levy would be required next year.

The Mayor was asked many questions and was given a rising vote of thanks at the conclusion of his speech.

An unexpected and most delightful feature of the luncheon was a baritone solo by Rotarian John Wilhelm. Mr. Wilhelm was at his best in registering the high notes.

## Says He Will Prove He Bought "White Mule"

B. H. Patton, who was arrested on a drunkenness charge at New Boston Saturday night, and on whom the officers claim they found two full half-pints of "white mule," was released on a \$50 bond Sunday and ordered to appear for trial Tuesday.

Patton said he had purchased the liquor Saturday and that he would prove it when he had his trial. The gross charge of unlawfully possessing intoxicating liquor, may be filed against Patton.

## 12 Sheet Mills In Operation

Four additional sheet mills in the Whitaker-Glossner plant were placed in operation at 12 o'clock last night and 12 of the firm's 17 sheet mills are now in operation.

Almost every department of the big plant is in smooth running order.

## Knights Attend Services

Fully 150 Calgary Commandery, No. 13, Knights Templar attended the special Ascension Day services at the First Christian church Sunday evening. Rev. C. R. Oakley has a special sermon for this service.

Calgary's Name.

The city of Calgary, Alberta, received its name in 1876 from Col. Kerland, then in command of the royal northwest mounted police at that point. He named it after his old home, Calgary, a small estate on the Isle of Mull, Scotland.

In No Danger.

"The radio-microscope," we read, is so sensitive that it will respond if anyone in its neighborhood should bluish. In the present state of society there is no great fear of its being overworked in this connection.—London Punch.

## Play Institute Opens Tonight

Final arrangements are complete for the Play Leaders Institute, which will open at 7 p. m. new time, tonight for a two weeks' session at the High School gymnasium. This institute for which no charge is made to those attending is conducted to give instruction in play and game leading. Graduates of this institute will have training that will make them skilled leaders of play and games for social evenings of all kinds and that will enable them to supervise children's play in the home and on the playground.

The Play Leaders Institute is presented to the people of Portsmouth by the Social Recreation Sub-Committee of the Portsmouth Leisure-Time Committee. Mrs. Lou Kline, head of this sub-committee, and Mrs. R. S. Kile is its vice-chairman. The institute will be conducted by Miss Jane Woodson of Community Service. Her services are given free to Community Service. The incidental expenses of the institute are borne by the Bureau of Community service, because of its interest in securing training for playground supervisors.

The institute is open to all persons, both men and women, over 16 years of age.

## Printers Form Partnership

Warner Chapman, who has been conducting the McConnell Printery, 214 Chillieth street, and James S. Kennedy, who has been working in the job shop, formed a partnership Monday and the firm will now do business under the name of Chapman and Kennedy, although the name of the shop will continue the same, the McConnell Printery.

Mr. Kennedy was foreman of the printing room at the T. M. Patterson Paper Box Factory for ten years and later conducted a job shop on Office street.

# MISS DOLLY WISE

She is here to answer any and all questions concerning love, matrimony, troubles, woes, etiquette, etc. Inquiries should be addressed to Miss Dolly Wise, care The Daily Times, Portsmouth, Ohio.

G. J. C.—The announcements should be mailed the evening of the day after the wedding.

Dear Miss Wise—I see where you have helped so many others, and I thought I would give you my name and phone number and maybe you can help me. If you know of any one who would like to hire a woman to do general house work by the week, from 7 o'clock till 3 p. m., as I have two children in school to look after, eight hours per day would be as long as I could work.

THANK YOU.

Dear Dolly—Can you tell me something that will reduce fat ankles? I saw in your column some time ago where you spoke of ankle exercises to reduce the ankles. Any information concerning this will be greatly appreciated. Also what is the cause of open pores in the face. Just recently I am getting some on my nose and am in doubt as to what the cause may be and a remedy for them. Thanking you in advance.

BROWN EYES.

I cannot recommend any particular exercises for reducing the ankles, as such exercises would have to be very intensive to obtain desired results, and am afraid would become somewhat tiresome. It has been said that

## TIMES SERVICE PATTERN

## WHEN A FELLER NEEDS A FRIEND—BY BRIGGS

**3 DAYS OF GOOD MUSIC FREE!**

HERE is your chance to have Edison's New Diamond Amberola in your home—to keep for three days absolutely free, and without obligation to buy. Let it play your favorite songs and selections—classical, popular, vocal and instrumental; compare its pure, mellow music with any "talking machine" you have ever heard.

If you decide not to keep the Amberola after this trial, we will take it back cheerfully; your three days of music will have cost you nothing. But if you realize that this perfect instrument will make your home brighter and cheerier—you can keep the Amberola on whichever of our payment plans is easiest for you.

**WHEELERSBURG**  
Miss Golda Compton, of Franklin Furnace, entertained a number of friends Saturday evening at her beautiful country home with a wisteria roast. The time was spent with dancing, games and music. Those who enjoyed the evening were: Edna Henning, of Portsmouth, Emma Green, Thelma Stanley, Golda, Thelma and Pearl Compton, Stella Holcomb, Garret Jenkins, Ethel and Edna Lynons, Edna Burke, Freda Wade, Ruth Groh, Marjory Hall, Maudie and Thelma Williams, Ernest Craibree, Roscoe Burke, Leslie Holcomb, Wilbur, Albert and Cassius Thompson, Lawson Burke, Clyde and Ralph Groh, Will and Lawrence Stanley, John Wade, Thomas Jenkins and George Hook.

Lawrence and Harry Stanley have returned to their home in Marion, after spending the week-end with Mr. and Mrs. William Smith.

Miss Edna Henning, of Portsmouth, spent the week-end with Miss Golda Compton, of Franklin Furnace.

Mr. and Mrs. Will Groh and daughter Irene, and Walter and Albert Green, spent yesterday with Mr. and Mrs. Peter Green, of Franklin Furnace.

Roscoe Burke, of Burke's Lane, was a business visitor in Portsmouth, Wednesday evening.

Harry Green has returned to Pittsburgh, after spending the week with his parents, Mr. and Mrs. Andrew Green, of Dogwood Ridge.

The Ladies Society of the M. E. church, will meet Thursday afternoon with Mrs. Albert Reinger.

Albert Goldcamp, of Hanging Rock, and Berdland Goebel spent yesterday with Mr. and Mrs. Fred Stanley, of Dogwood Ridge.

**The Weight of a Signature.**  
As a part of the equipment of a talent, scales are made so fine that they will show the difference in weight between two absolutely identical pieces of paper, one of which contains a signature and the other does not. Luckily, the weight a man carries in this world does not depend on the weight of his signature, or such balances would have a boom.

**Severe but Effective.**  
The Miami Herald says that in some parts of Tibet, they eat bride's mother at the wedding feast. That's certainly a severe but effective way of getting rid of the mother-in-law difficulty.

## PLUTO WATER America's Physic

**HIGH** in mid-air, the structural steel worker faces constant danger. Yet his risk is no greater than yours when constipation holds you in its grasp. Constipation is a swift-footed enemy. Poisonous waste in the intestines breeds germs by millions. Pneumonia, influenza—sickness of every kind—lurk in a clogged intestinal tract.

When you are constipated, you cannot afford to take chances. The waste must be removed at once. Old-fashioned, over-night cathartics endanger your health. They are too slow—too uncertain.

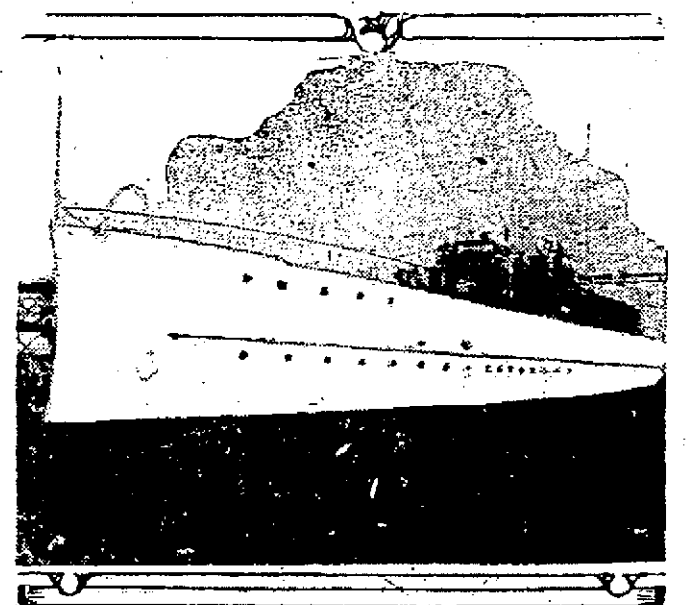

Today, men and women who know the importance of prompt relief, take a water laxative which will flush the system quickly and completely. Pluto Water, America's foremost water laxative, is kept handy in thousands of homes.

Pluto, with its harmless minerals, is safe and certain; gentle and thorough. Works fast without griping. Pluto Water is beneficial in treatment of kidney, liver and stomach troubles, rheumatism and nervous disorders. Bottled at French Lick Springs, Ind.

agreeing to the German proposal for the transference of the debts even though the Allies may so desire. On the other hand, can America avoid saying so and thus puncturing as unacceptable at least one clause in the German reparations proposal?

That's the question which is being discussed among diplomats and it will not be surprising if this particular dilemma had as much to do with the hesitation of the Department of State to forward the German proposals to the Allies as the apparent unwillingness of the Allies to receive the German note at this time.

**Negotiations Must Continue**  
The more the situation develops the more the Allied Governments are pleased with the apparent recognition by the Washington Administration that the problems of the world, particularly reparations, cannot be avoided by America. The passage of the Knox resolution declaring a state of peace with Germany comes at the very moment when Secretary Hughes is hoping the influence of the United States may be properly exerted for the resumption of negotiations over the reparations question. In fact he is in the position of courting new proposals from Germany which he may present to the Allies. After the Supreme Council has acted and France has ordered her troops into the Ruhr Valley such proposals will unquestionably be made by Germany and the discussion will proceed. Germany is not in a position to resist, she therefore must continue to bargain, negotiate and finally yield.

**Expect U. S. To Perpetuate**  
Reparations negotiations probably will go on for several weeks and ultimately the Allies expected the United States to have a definite voice in the settlement. Few of

the diplomats here see how the United States can maintain silence while her biggest debtors arrange for payments with Germany which may affect the export trade of the United States. It was the determination of this Administration to keep out of European affairs as much as possible. But events are much more compelling than it ever seemed they would be when the political campaign was in progress last summer. The Harding Administration finds foreign affairs a thorn in the side of every attempt to concentrate on domestic problems.

## Daugherty Says

(Continued from Page One)

"I considered the matter very carefully throughout the three weeks preceding yesterday and finally determined to issue no warning, such as has been customary in the last few years. I was, of course, anxious to know how this could result."

"I received hourly reports from the department of justice all day Saturday, throughout Saturday night and all day Sunday, until midnight. These reports were collected by the department from the most remote parts of the country."

"Every hour gave reassurances of the quietude and calmness widespread through the land. Yesterday's observance of a quiet Sunday, an American Sunday, gives assurance of the return to normal conditions in America."

"My idea was that if a general warning were given, it would invite, rather than prevent demonstrations. I believe it is best not to agitate the situation. The country is settling down to a patriotic program. Disturbances of the character threatened would not be peculiar any place."

**Need Less Watching and More Working**  
"I think we need less watching and more working in this country."

"The police forces of the cities throughout the country have done wonderfully well and are entitled to congratulations. Splendid preparation was made by them and the result can be observed throughout the entire country. Of course, we will always have crime. I would not say it is perfectly safe to leave the smokehouse door open, but we are back to normal. Just as the president of the United States would say, and we have reason to be proud of ourselves."

"Of course, the natural precautions of the American people always are the best preventative against disorders."

Mr. Daugherty left for Washington last night.

## McGannon Is Seriously Ill

CLEVELAND, O., May 2.—County Prosecutor, Edward C. Stanton and W. L. David, special assistant county prosecutor, were prepared today to appear in court and request that a writ be set for the trial of W. H. McGannon, former chief justice of the municipal court.

McGannon, according to friends and relatives, is seriously ill and will not be able to stand trial for at least two weeks on an indictment charging him with perjury during his two trials for the murder of Harold C. Kazy, of which he was acquitted.

"It would be impossible for Judge McGannon to come into court this week unless he was carried in on a stretcher," Mrs. McGannon said. While admitting he was not at home, she refused to divulge where he is or the nature of his illness.

## Only Special Committees At Work

COLUMBUS, O., May 2.—There was comparative quiet around the general assembly halls today, with both houses recessed until May 12. The house people committee, investigating the fight over the Emory Angles' licensing bill, and the conference committees attempting to iron out difficulties between the two houses on the taxation and appropriation programs, were working.

Except for those, the work of the assembly is considered practically completed.

The conference committees will organize today and hope to complete their labors by May 12.

The conference committee named to work out the appropriation bill for two years is composed of Senators Miller, of Muskingum; Atwood, of Franklin, and Burke, of Lorain; Representatives Carpenter, of Jefferson; Brown, of Fayette; and Wise, of Stark.

## Berlin Will Not Parley Direct With Conference

BERLIN, May 2.—German government does not intend to negotiate direct with London reparations conference so long as the door at Washington is open to U. S. members of German government staff.

## ON TRIAL FOR PAYROLL MURDER

CLEVELAND, O., May 2.—The trial of Frank Maita, under separate indictments for the first degree murder of W. O. Sly and George K. Fanner, was scheduled to begin today. Sly and Fanner were murdered last December 31, during a payroll robbery.

Sam Purpura and Louis Komer, alias "Tobacco Kid," who police say have confessed participation in the holdups, probably will be used as state witnesses.

## W. O. W. Meets In Convention

CLEVELAND, O., May 2.—The ninth biennial state convention of the Woodmen of the World opened here today. Rev. H. T. Rooster, of Columbus, delivering the invocation, Mayor W. S. Fitzgerald delivered the address of welcome. Louis Abbott, of Columbus, responded.

Five hundred delegates and visitors had arrived early today, with increasing trains increasing the number, and it is expected between 2,000 and 3,000 will be here for the first business meeting tomorrow.

With the opening formalities out of the way, W. A. Fraser, of Tugah, secretary commander of the organization, was scheduled to address the convention this morning. A sight-seeing tour in automobiles was on the afternoon program. Sorcerer Fraser will address an open meeting tonight.

Plans for a four million dollar national tuberculosis home will be discussed before the convention closes Wednesday night, with a banquet.

**Thinnest in Winter.**  
Most people think that in the summer, when they perspire freely, they lose far more weight than in the winter, when they wrap themselves up in order to keep warm. But the reverse is the case. From September to March the human frame undergoes a gradual wasting process, because there is a greater call on the reserves of fat to maintain the heat of the body. With the commencement of April each begins to form again, and continues to do so until the end of August, when the accumulation of fat has to be shared out in the shape of heat.

**Alchemy.**  
In the little town of Benlah, New Mexico, where it is a rare occurrence to see a white woman, two men, Stone and Wood, were standing on the sidewalk, when a well-dressed young lady came tripping down the street. Wood turned to Stone and Stone turned to Wood, and as she passed they both turned to rubber—Science and Alchemy.

## "Chiropractic Removes The Cause Of Disease"

What brings health? Not the treating of effects, but the removing of the CAUSE of disease brings health.

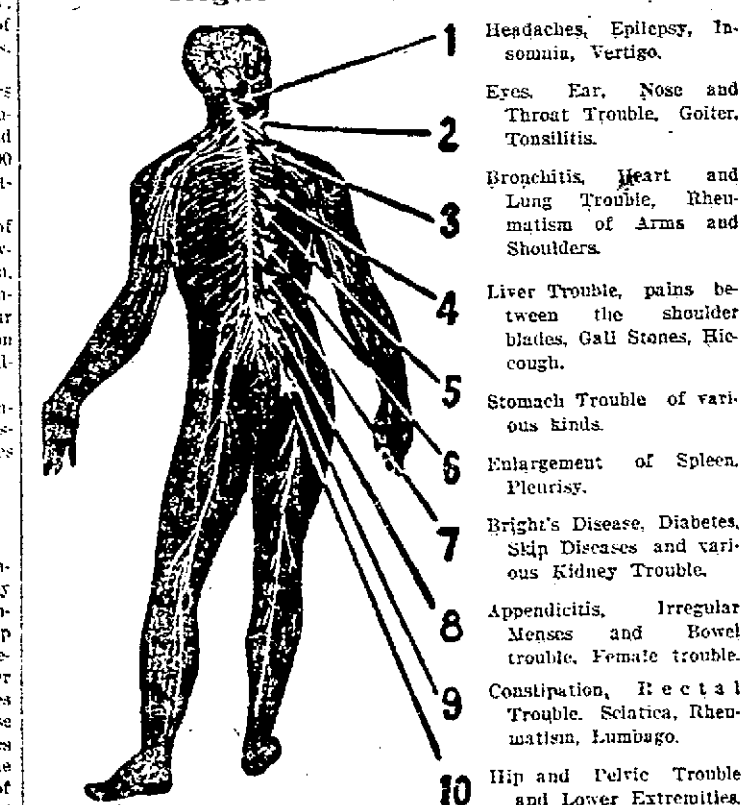

Dr. Alfred Walton, founder of the Essex County Hospital, indorses Chiropractic because it is the only method which removes the cause of disease; and thousands of men and women throughout the country are living testimonials to the benefits they have experienced after taking Chiropractic Adjustments.

Drugs deaden pain, but they cannot remove the cause of the pain; surgery may cut out a diseased part of the body, but it cannot remove that which caused the diseased condition. The CAUSE of abnormal condition—sickness, weakness, distortion—is nerve pressure somewhere between the brain and the rest of the body. In 95 per cent of cases nerve pressure is found at the spine, where one or more vertebrae have become slightly misaligned.

Consider the fact that untold number of people have suffered with the same ailment you have, and have found relief through Chiropractic, and you will see why you should at least investigate.

Come to our office now, we will make a Spinal Analysis and tell you what your troubles are, free of charge.

## FOSTER KRAKE TO RETURN FOR RECITAL

Those interested in Community Music will be glad to learn that a telegram has been received from Foster Krake, now in Chicago, stating that the National Community Service had granted him permission to return to Portsmouth for two additional weeks, when his present engagement there is completed, which will be about May 15th.

With Mr. Krake to conduct the final two weeks recitals, this insures the success of the coming Community Chorus Recital. Hard work in preparation for the recital will be taken up again in a few days, and will proceed uninterruptedly until the big chorus is in shape for a splendid performance.

An orchestra is as essential for a recital as a chorus, and steps are being taken to perfect such an organization at once in order that proper orchestral support may be provided, not only for the big event, but for many future musical affairs in Portsmouth.

Portsmouth music will be just what Portsmouth needs to make it, no more, no less; and it certainly seems as if music was fated to be one of the large elements in her community life.

## George D. Scudder Guild To Open Charter Roll

The organization of the George D. Scudder Guild of the First Presbyterian Church, a missionary society composed of young women between the ages of eighteen and thirty, and named in honor of one deeply beloved by all at First Church, has been thoroughly successful, and the charter roll will be open for signatures tomorrow night. The meeting for this purpose will be held tomorrow (Tuesday) evening, at 7 p. m. at the home of Miss Helen Liming, 1720 Fifth street. In addition to business matters, a missionary program has been arranged which promises to be very interesting. Miss Katherine Appel is the newly-elected president of the Guild, and Mrs. David E. Thomas and Miss Margaret Legler are the patrons.

Giant Insect.  
The largest insect known, but now extinct, was a dragon fly, which had a wing-spread measuring two feet.

## DAYLIGHT SAVING TIME IN USE

Switch To "New Time"  
Made All Over City

Portsmouth retired Saturday night by central standard time but a greater number of the inhabitants arose Sunday by daylight saving time and continued that schedule all during the day going to work Monday by the new time. The city in general was using the new time, virtually all the larger manufacturing plants and business houses opening or starting work on the new time today. The new time will continue until Sept. 3, when the clocks will be moved back an hour.

The clocks at the steel plant were set ahead an hour at the stroke of midnight Saturday. The clocks in the other manufacturing plants were turned ahead by the watchman during Sunday.

The public schools and St. Mary's school started on the new time schedule this morning. Holy Redeemer pupils went to school this morning by old time but this morning it was announced that Holy Redeemer school would open and close on the daylight saving schedule starting Tuesday.

The banks are keeping their old hours of 8 to 2 central standard time. The city and county offices, the railroads and postoffice will continue with central standard time.

The town clock in St. Mary's church tower moved ahead an hour Saturday evening and the public clocks on Chilliho and Gallia streets were set to show daylight savings time today.

When the question of time for Sunday services and all other services was put to a vote at the Second Presbyterian church service Sunday morning old time was adopted as the time for services. The matter was put up to the congregation and when the vote was counted it was found that 103 were for continuing the services on old time and 157 were for the adoption of new time or daylight savings hours.

Although the majority in favor of old time was only 12 it was decided that the majority should decide the question and Rev. George P. Horst then announced that old time would be used for the services.

The majority of the churches started their services Sunday by old time but during this week the majority of the churches will change their clocks and start services next Sunday by the new time.

## TO OBSERVE MOTHER'S DAY NEXT SUNDAY

Next Sunday will be observed as Mother's Day at the Second Presbyterian church. At the morning services there will be a special musical number in memory of Mother. A number of girls will act as ushers at this service. Dr. J. Sanford of Columbus will fill the pulpit in the morning and Dr. Wisbart, president of Wooster College, will preach in the evening.

Rev. George P. Horst who left early this morning for Princeton, N. J., to attend the tenth anniversary of his graduating class tomorrow night will stop at Elkins, W. Va., enroute home to conduct the funeral of a former comrade-in-arms. The deceased was the Captain of the Company in which Dr. Horst served as Chaplain, dying with Rev. Horst by his side. The body has just been returned from overseas.

**High Seas.**  
The rule of international law is that every country bordering on the sea has the exclusive sovereignty over such sea to the extent of only three miles from its shores. All beyond not with in three miles of some other country is open or common to all countries. "High seas" means the open sea, including the whole extent of sea so far as it is not the exclusive property of any particular country.

**Considered Holy Spot.**  
The biggest bathing parade in the world takes place at Allahabad, India, according to a writer in the London Daily Mail. Here in Allahabad nearly a million people have bathed, he says. And it is not even as if some cooling sea waves attract this multitude. The nearest sea is nearly a thousand miles away to the east. Allahabad's attraction is due to the fact that here the two holy rivers of India meet. This is the sacred spot where Mother Ganges meets her chief tributary, the holy Jumna.

**The Mussulmans' Sacred Black Stone.**  
The Kaaba, or Kaaba, the most sacred shrine of Mohammedanism, toward which Mussulmans turn their faces in prayer, is a cube-shaped, flat-roofed building in the center of the Great Mosque of Mecca. In the northeast corner is the famous "black stone." This stone is of irregular oval shape, about seven inches in diameter, and probably of meteoric origin. When Mohammed returned triumphantly to Mecca, he destroyed all the idols found in the Kaaba, which had fallen into pagan use, but spared the "black stone," which all Mussulmans venerate.

**A Skeptic.**  
One reason why we don't accept the theory of gravitation is because when the bottom drops out we hit the ceiling.

## CAPTAIN ALLEGES MURDER CHARGE IS "PERSECUTION"

Capt. Robert Rosenbluth.

That Capt. Robert Rosenbluth, U. S. A., is the victim of persecution is the contention of his counsel. The captain is held on \$25,000 bail on the charge of killing Major Alexander Cronkhite. The "olor was shot to death. The case was at first reported as an accident, which occurred while the major was cleaning his pistol. Later Sergt. Roland P. Pothier was arrested and is said to have confessed to shooting the major, but charged that the captain was implicated.

Who Doesn't Like Toast?

Almost everybody likes a couple of slices of hot, buttery toast this kind of weather. Of course, there is toast made from Milk Malt Bread. That's the kind of toast that has a rich golden brown crust, tender and yet crispy and delicious; with a heart of soft, warm, spongy bread to absorb the butter—say, folks, isn't that the kind of toast you like. Ask your regular grocer for that large loaf of Milk Malt Bread.

**The Candle Snuffers Were Snuffed.**  
It is just about 300 years ago that  
candle snuffers used to be used, for  
at that time there was a great ad-  
vance in the manufacture of the  
wicks which enabled the latter to  
burn more satisfactorily, and after  
that there was no use for the snuffers.  
The wicks of candles are put through  
a treatment on various chemicals be-  
fore they are placed in the interior of  
the candle. This prevents them from  
smoking and from burning too rapidly.

brother-in-law. "For a time, until I  
mastered the subject, I must confess  
that it had me considerably flustered.  
But now I merely put the dear little  
fellow under a tub, weighted down so  
that by no possibility can he be over-  
set, and then go on to the barn and read  
and smoke in peace."—Judge.

## THE MARKETS

## NEW YORK STOCKS

NEW YORK, May 2.—Last week's lively dealings in selected stocks at higher prices were resumed at the outset of today's session. Oil, motors and allied specialties were most conspicuous, with Coudon, Pierce-Arrow and Central Leather leading at gains of 1 to 2 points. Steels and equipments were irregular, but coppers and shipbuilders denoted further moderate accumulation. Ralls displayed little animation and the usual minor specialties were uncertain. Affairs abroad were reflected in rates for British exchange, demand quotations rising to 8.90%, the highest quotation so far this year.

Shorts made another drive against oil during the first hour on a revival of recent rumors affecting the Mexican groups. Mexican Petroleum dropped 1/2, Pan-American 2 1/2 and others 1 to 2. Studebaker and other prominent motors fell 1 to 2 1/2 points and Crutcher lost 1 1/2. Heavy specialties embraced Sugar-Tech, May Department stores and several of the leatherers. Oils and most other leaders rebounded sharply before noon, however, when independent steels, as well as coppers and rails featured a broader buying movement. Call money opened at 7 percent the higher rate reflecting last week's deficit in clearing house reserves.

Trading in stocks today was very active and liberal. Popular issues in the industrial groups recorded extreme gains of 1 to 4 points. Sales approximated 1,200,000 shares. The closing was strong.

## GRAIN AND PROVISIONS

CHICAGO, May 2.—Complete absence of deliveries on May contracts brought about a sharp upturn in wheat prices today. It was expected that the visible supply total this afternoon would show a fair decrease and this fact served further to make shorts anxious. Most of the trading, however, was in small lots. Opening quotations, which varied from unchanged to 1 1/2¢ higher, with May 1 1/2¢ to 1 3/4¢ and July 1 1/2¢ to 1 1/4¢, were followed by decided gains all around.

Corn advanced for much the same reason as wheat. May deliveries proving small. After opening 1/2¢ to 1 1/4¢ higher, including July 6 1/4¢ to 6 1/2¢, the market continued to harden.

The market closed unsettled, 1 to 1 1/2¢ net higher, with May 1 1/4¢ to 1 1/2¢ and July 1 1/2¢ to 1 1/4¢.

Oats were dull but sympathized starting 1/2¢ to 3/4¢ higher, and then with the firmness of other cereals, ending a trifle.

Lower quotations on hogs weakened provisions.

The close was easy 1 to 1 1/2¢ net advance with July 6 1/2¢ to 6 3/4¢.

## THE MOVIES

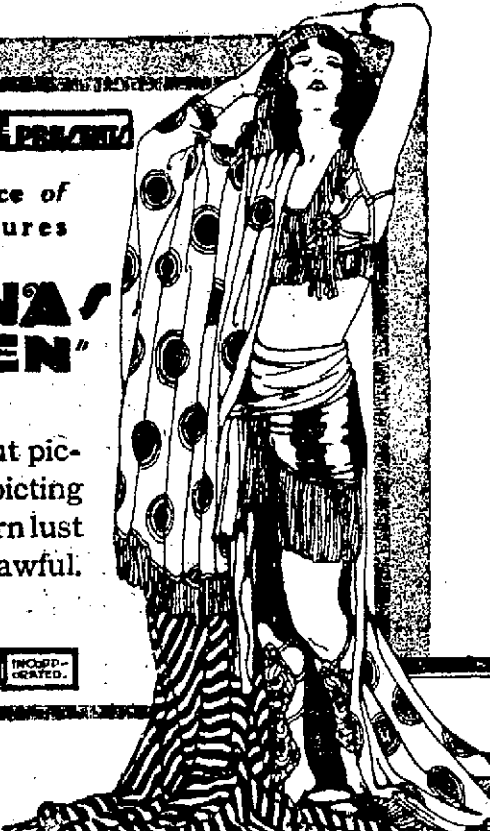

The Masterpiece of Motion Pictures

## 'MADONNAS AND MEN'

The most talked about picture of all time depicting the ancient and modern lust for that which is unlawful.

JANIS PICTURES

STARTLING IN STORY—PRETENTIOUS IN PRODUCTION—ASTOUNDING IN ACTION—THE EASTLAND THEATRE TAKES GREAT PLEASURE IN PRESENTING FOR AN INDEFINITE ENGAGEMENT BEGINNING TONIGHT, THE GIGANTIC MASTERPIECE OF THE YEAR, 'MADONNAS AND MEN.' WITH SPECIAL SETTINGS BY EASTLAND ORCHESTRA—SHOWS STARTING AT 6:30 AND 8:30. (NEW TIME)

A.—'Hear Me Norma'—From the Opera 'Norma'—Eastland Orchestra Under Direction of Wm. A. Spitzer.  
B.—Masterpiece Presents 'Madonnas and Men,' Exclusive Showing in Portsmouth.  
C.—The Eastland Tropic Tips.  
D.—Al Chri-Ge Presents His Newest Christie Special Comedy.

New York's staid theatre audiences received somewhat of a shock recently when 'Madonnas and Men,' a stupendous photodramatic production, was given its premier presentation at the 44th Street Theatre. The capacity audience found itself actually cheering numberless scenes in every reel of the massive production. Not alone did they show their approval by hand clapping, they actually cheered and it is no wonder, for no production in any way approaching 'Madonnas and Men' has ever before been presented to the public.

The remarkable photodramatic story of ancient and modern times, 'Madonnas and Men' is soon to begin an engagement at the Eastland Theatre, where it is to be given a special presentation with an elaborate musical setting and other interesting features.

Opening with a few massive scenes of ancient Rome which show the blood lust and utter disregard for womanhood that characterized the nation during the reign of Nero; the story quickly turns to modern times and shows that the desires of the times and respect for womanhood is much the same now as it was when the Christian Martyrs were sacrificed to make a Roman holiday. Portraying the more important roles in the epic—the production will be found Jean Burrows Fontaine, formerly of the 'Zieg-

feld Follies'; Edmund Lowe, one of the Helasco stars; Anders Randolf, one of the most accomplished actors on the screen; Fairo Biekey, who has appeared as leading lady in many prominent film productions of late; Ilaye Dean, one of the most beautiful of stage and screen stars; and that sterling character actor Gustav Von Seyffiditz in the crowning achievement of his screen career.

In presenting 'Madonnas and Men' at the Eastland Theatre the management believes that it is offering an attraction that will never be forgotten by all who see it and without doubt the most stupendous and awe-inspiring motion picture spectacle ever screened.

## OBITUARY

**Meacham Funeral**  
The funeral services of the late William Meacham will be conducted from the home, 2211 Vinton avenue Tuesday afternoon at 1:30. The last rites of this splendid young man will be in charge of Rev. L. N. Kayser.

William Meacham was a veteran of the World War. He was in the service of his country 14 months, serving eight months overseas. He was in Co. C, 204th Battalion, Tank Corps.

Burial will be in Greenlawn.

**Charles Warren Johnson**  
Charles Warren Johnson passed away at his home on Duck Run Sunday afternoon at 4:20. His death resulted from a heart ailment.

**A Kansas Abil.**  
An Atchison reporter was horrified when he thought he smelled whisky upon the breath of a prominent Atchison banker who has the reputation of being a teetotaler. Investigation revealed instead of whisky the banker had been eating onions and was chewing champagne-flavored tobacco.—Atchison Globe.

**Initials of Famed Pioneer.**  
The name 'D. Boone' was discovered chiseled in a rock at the mouth of a cave in Lincoln county, West Virginia. As the forms of the letters correspond with those found in the rocks of Kentucky it is thought that the famed hunter at one time made an expedition into that section of the country.

ENOUGH TO MAKE A MUSICAL COMEDY

### Will Revive Horseshoe Pitching

When President Harding accepted the presidency of the National Association of Horseshoe and Quo'it Pitchers, he gave horseshoe pitching, which was just beginning to come back into popularity, a tremendous boost, which will be felt all over the United States, and especially in Ohio, Cambridge and Zanesville, in fact, have already taken a city-wide interest in this old-time and popular pastime, and are busy organizing leagues and tournaments. Now will Portsmouth be left behind.

The Leisure Time Committee felt out the city in regard to horseshoe pitching and found a most enthusiastic response. Groups everywhere have formed and are planning to pitch horseshoes. One of the earliest groups was formed by Dr. Tuttle, Fred Tynes, Alva Chabot and others living in the immediate neighborhood, and they are pitching regularly every noon and evening.

Frank Sheridan and Charlie Howland are organizing one on the hill. Harry Brierley and friends living near him, are pitching at York Park, and back of Second street.

H. Arthurs has organized a bunch of enthusiasts at the Mitchell Manufacturing Company. Brierley and Yellers have a bunch of enthusiastic pitchers also. Jim Peach and Wayne Evans, out at the power plant, are rounding up a promising 'bunch' of slingers, to enter the tournament.

The churches are taking it up. Trinity is organizing its team, and the Franklin Avenue church is doing the same. Members of the United Brethren church are planning to enter a team, and Klein is organizing one at the Christian church. Dr. Tremper has promised to organize a team at the First Presbyterian, and a member of the Board of Trustees intends to enter a team from the First Baptist church. The Central Presbyterian and Bigelow churches are considering the proposition. The boys now pitching at the N. & W., the Whitaker Gleason and the Breece Manufacturing plant will be invited to join.

Charlie Howland, chairman of the Athletic Committee, has appointed Dr. Tremper as chairman of the sub-committee on horseshoe pitching, and each group of horseshoe throwers will be invited to send a representative to the meeting. Dr. Tremper will call some time in May.

The Athletic Committee wishes to especially invite the Many Methodist and the Second Presbyterian, the First Evangelical, the Grandview Avenue, the Kendall Avenue, All Saints' St. Mary's and the Holy Redeemer, and also any other groups of horseshoe pitchers that may form, to enter teams in the city-wide tournament.

Send in the name of your group to the Leisure Time Committee, 75 First National Bank Building. No dues or admission fees are charged. What we are all out for is a hilarious good time and jollity, and we're going to get it.

It is planned to hold a city-wide tournament in June, first in doubles, and then in singles. Elimination contests will first be held in each group, to select its champions. These champions from each group will meet each other to fight it out for the city championship. The same course will be followed in singles. After the singles have been won, it is planned to hold a few other contests.

A Grandfathers' Tournament will be pulled off, in which it is expected the judge will be an enthusiastic participant, unless some gray-haired youth full of spirited grandiose of a bouncing baby boy has already cooped the belt in the singles. Then a Father and Son Tournament will be staged, though in that the chairman of the Athletic Committee, will be rather weak. Then, if it is considered that it will not 'bust' up too many happily married couples, nor cause too many family quarrels, a Husband and Wife Tournament will be pulled off, and some husbands may become expert dodgers.

Other stunts are planned, and a hilarious summer in horseshoes is looked for. The Leisure Time Committee has secured a set of rules.

Poetic Precision. From a Literary Article—"The true poet will avoid such rhymes as 'spot' and 'yacht,' which, though 'perfect' to the ear, are cacophonous to the ear." And also, we suppose, such combinations as 'dough' and 'cough,' which, though perfect to the eye, are unpleasant to the ear.—Boston Transcript.

The story of Lalla Rookh in short is this: She was the supposed daughter of Aurngzeb, emperor of Delhi. She was betrothed to Alir, sultan of Lesser Bucharia. On her journey from Delhi to Cashmere she was entertained by Feramorz, a young Persian poet, with whom she fell in love, and as discovered that the young poet was the sultan to whom she was betrothed. The story is beautifully told by the Irish poet, Tom Moore. The title of the poem is "Lalla Rookh."

## WIEDEMANN TEAM WINS

Cable's All-Stars were handed a defeat by the speedy Wiedemanns in the opening combat of the season in the All-Star game Sunday afternoon, the Appleton tribe annexing the hard fought and interesting battle only after a titanic struggle, coupling the victory in the ninth inning, the final count being 1 to 2.

The two teams fought desperately throughout the contest and the Wiedemanns had the advantage over most of the route, scoring a tally in the fourth, which for considerable time looked like would be sufficient to win with the way Doc Baughman, the skilled sidewheeler, was moving down the enemy round after round.

Going into the last frame on even terms, all two, the visitors staged a smart batting rally which turned the trick and it was Manager Charley Appleton's ball which earned the decision for his team, with two down and two runners on the paths, he evaded a triple down the right field foot line, which dropped in fair territory by inches, and the two muckers which proved to be the winners were over the run.

## ROMANCE IN THE SOUTH SEAS

A protest recently came from the people of one of the islands of the South Seas which we have been accustomed to think of as inhabited by savages. They complained that they were pictured as going about in a state of nudity, whereas the truth was, they said, that they had worn much the same sort of clothes as we do for two generations and would be as much shocked as we if one of their number would appear in public without restraint.

Our conception of the life of those fascinating islands in a remote part of the world is based largely on the stories of Herman Melville, Robert Louis Stevenson, Jack London and other writers of romance; doubtless many of our ideas concerning the region and its people are as wide of the truth as the misapprehension that the folk of the protesting islands go naked. We must guard, however, against going to the other extreme and picturing the South Seas as civilized to the same extent as the United States or Europe. Frederick O'Brien has shown otherwise in "White Shadows in the South Seas," and another traveler has recently returned from one of the more obscure islands with the statement that the natives are barbarians of the most primitive sort and still practice cannibalism.

And now comes from Papeete, Tahiti, as a news dispatch a yarn that would do credit to the imagination of any of the novelists of the South Seas. It is a story of treasure taken from Peru during a revolution many years ago and buried on one of the coral islets to the eastward of Tahiti. Dying in Sidney, the last survivor of the piratical band that stole the jewels revealed the hiding place to a stranger who had befriended him, and an expedition is being fitted out to hunt for the loot. That it is taken seriously by a number of people who are willing to risk money on the recovery of the treasure is pretty good evidence that the possibilities of a wild and romantic adventure of the kind that Stevenson loved to narrate are still far from exhausted, and that romance is yet to be found in the South Seas.

## BORN AND DIED IN EXILE

BECAUSE she was regarded as a very dutiful "hausfrau," the late ex-queen of Germany escaped much of the world's scorn for her discredited husband. Her death in exile, in the little Dutch village of Doorn, was probably fate's way of balancing part of the account at least. She, too, was born in exile. Lived the greater portion of her married life in pomp and splendor and came at last to a deathbed set up outside her country from which she had been barred by her countrymen.

There is little glory, little fascination in that story of queenly existence. The price she paid was heavy, but not heavier than the system of misguided government to which she adhered warranted. It is not likely to make maidens ambitious to ascend a throne.

## DUE FOR RUDE AWAKENING

IT is difficult to believe that the German people realize the proportions of the disaster Germany is inviting by continued opposition to the reparations demanded by the allies. As May is upon us—the month set by France for proceeding vigorously against them if their attitude is not changed—they continue acting as if they believed that the United States will at the last minute become a sort of an angel or a Santa Claus to them and smooth out all their difficulties. At least they would have this nation which turned the tide against them in war become neutral in peacemaking. So they continue talking about everything else but getting down to business in the only way that can keep France from pushing further into their country.

The world, however, will not have long to wait now to see what definite turn the allied action for enforcement of payment of reparations is to take. No matter what Germany may think the attitude of the allied powers toward France is, it will find in any test that they still have a very deep regard for the nation that showed such heroism at Verdun and throughout the great struggle. The only salvation for Germany lies in getting down to work to pay, to the extent of her ability, for the war she started.

We always did think much of Barney Baruch, American financial adviser at the Paris peace conference, but now that he agrees with us identically on Germany's last indemnity we think considerably more. Yes, some day we are going to write a book on our war time experiences and exactly the reverse of Lansing, we are going to tell what a grand man Barney is because he is always agreeable and agreeing with another smart man.

**Carbon, a Chemical Element.**  
 Carbon is one of the chemical elements. It forms more compounds than any other of the elements. Its compounds are found in every plant and animal, and the branch of chemistry that treats of these compounds is called organic chemistry. With oxygen it forms carbonic acid, or carbon monoxide, and carbonic acid gas. With hydrogen it forms an extensive class of compounds known as hydrocarbons, which differ widely in their chemical and physical characteristics. The various carbonates occur very abundantly in the earth's crust.

**Hanging Pictures.**  
 A picture should be hung in a room so that its center comes just on a level with a person of average height.

**Thought for the Day:**  
 The man who writes a book without a message wastes his time and our time.

## A Naturalist At Work

By Frederic J. Haskin

NEW YORK, May 2.—No mammals are today could get away with a series of secret murders such as started the "Blue Mongoose." Not unless he were a rubber forest. For there would be the unmistakable evidence of his finger prints, which are very different from the human finger prints, and which, likely as not, could be quickly traced to the newly established "mongoose's gallery" of some near-by zoo.

This assurance is given by Dr. Raymond I. Ditmars, curator of reptiles of the Bronx Zoological Park, who has recently made a thorough study of monkey hands. Dr. Ditmars was first interested in the subject of the American Museum of Natural History of this city, which wanted some hand prints of monkeys to use in its elaborate study of the evolution of man. The Galton Society of Washington, which is also devoted to the study of man's evolution, was likewise anxious for a similar supply.

"My only part in the project was to get the prints," explained Dr. Ditmars, "but as the work progressed I became so much interested that I bought several books on palmistry containing great numbers of prints of human hands."

The curator immediately found that while the general hand prints of monkeys and those of human beings are similar, the monkey hand possessing the life line, heart line, head line and fate line which are to be noted in the human hand, a close examination shows striking differences in every instance between the human hand and the monkey hand.

"The human hand in all cases," says he, "has the tips of the fingers and the tip of the thumb marked with lines arranged in whorls. The monkey hand, on the contrary, invariably has the tips of the fingers marked in straight lines, never in whorls."

"On the monkey hand the whorl markings are always on the mounts, the soft lumps of flesh at the base of the fingers. In the human hand these mounts are always marked with straight lines, never with whorls."

"No matter how human the monkey's hand may appear at first glance, a print examination shows this difference, although in the orang outang, for instance, the resemblance is otherwise startling."

"The whorls on the tips of the fingers and especially on the thumb, are the means whereby experts establish identity. In monkeys the whorls on the mounts could be used for the same purpose. Apparently, there are no two monkeys with the same markings on the mounts of their hands, just as there are no two human beings with whorl markings that are exactly the same on the tips of their thumbs or fingers."

### Monkey Character

In obtaining the finger prints, Dr. Ditmars had to combine his efforts to the most treacherous monkeys, the larger and more savage animals stubbornly holding out against this process of identification. But he succeeded in getting specimens of the rhesus, a tame black ape, a South American monkey, a pithecia, a cerise monkey, a howler, a macaque, a Java macaque and an orang outang. The principal difficulty lay in keeping the animals quiet so that they would not jump in the psychological moment.

"I used a sheet of dull surface paper with a line grain for making the print," explained Dr. Ditmars. "The monkey's hand was covered with the mass of oil and graphite. After the hand was covered with the substance it was pressed against the paper and an excellent print obtained."

"It was not, however, as easy as it sounds," said the curator reflectively. "At first most of the monkeys immediately kicked off the paper. We then put some cotton in the paste and this seemed to interest them immensely. Their curiosity was so much aroused that they went through with the operation without flinching."

"One officer persisted in kicking his paw, however, and his actions were so obstinate that I decided to make a motion picture film of the monkey being finger printed to show at a dinner of the New York Zoological Society."

"Finding that the monkeys desired a treat after being finger-printed, I brought in a bunch of bananas and made a movie of the monkey eating, which I called 'Dinner in the Zoo.' One monkey did not acquiesce in this, however, and refused to be finger-printed."

"The finger-printing of the monkeys is only one of the many interesting experiments that Dr. Ditmars is conducting at the Bronx Zoo. Recently these activities, started for the curator's personal entertainment, turned out to be of public interest. This when he first set up his movie apparatus in the zoo and announced his intention of filming the various species, no one was very greatly impressed. Yet many of these pictures have proved of great value. In the casual way Dr. Ditmars has succeeded in building up a collection of reptiles which is recognized as one of the finest in the world."

A man who likes snakes. Like several other well known naturalists, this curator is not only a great student of reptiles—he is a great admirer of them. "I am never so happy," he says, "as when I am on a ledge all around with rattlers. I take as much delight in their gorgeous coloring as a few collector might in the prize stones that come into his possession."

He himself has captured many prize specimens for the zoo. He knows about 20 snake dens where snakes hibernate, all located within 50 miles of New York, and about this time of year he starts out on a snake-hunting expedition from which he always returns with a bag full of his reptiles. It makes him furious, however, to hear of other people hunting snakes, especially if they hunt to kill them. For this reason he keeps secret the locations of his snake dens as if they contained buried treasure. The most that he will divulge is that they are to be found largely in the Ramapo hills of New Jersey.

"Last year I motored about a thousand miles and walked and climbed I don't know how many more in making a round of my snake dens," says Dr. Ditmars. "I now have the places all charted. I have to keep them a closely guarded secret or farmers living near them would destroy the dens with dynamite."

The curator's own snake-hunting weapon is merely a harmless forked stick, with prongs not over two inches long. This is jabbed at the snake's head so as to pin it to earth. Then another stick is laid across his head close to his jaws.

"I usually rest my knee on the second stick to hold it in place, and then, while the snake's head is held powerless to move, grasp him around the neck with one hand in such a fashion that the thumb and second finger are firm against the back of his jaws, and the index finger pressed against the rear of his head. If your fingers are a quarter of an inch too far back, though, the snake can whip its head around and strike. That is what gives the same its thrill. I guess. When you have him like that it is a simple matter to drop him tail first into the waiting sack."

Dr. Ditmars is a strong, heavily built man with a quick eye and movement. Agility and steady nerves, he says, are the principal requirements in handling wild creatures whether they be monkeys or reptiles.

There's worse things than being sick. There's worse things than being sick. (After you're through with being sick) When things sound right and the old clock's tick. Not far away. But stick. Is the way things taste and the things you eat. And the way the family's awful sweet. And the way the kids roll from the street. "Hi, Willy! Hey, old pal!" Yes, there's worse things than being sick. Rather, getting well!

There's worse things than having mumps. (After you're so you can swallow) For then you can tell about them lumps. You bore without a holler. And then you can eat, and most every day. The neighbors send in good stuff for you. You set up in bed and play— "And put laughs, says 'You sell'! Yes, there's worse things than being sick— Rather, getting well!

There's worse things than going out. And seeing all the kids once more. And it's awful nice to hear 'em shout, "Willy's open! His front door!" To wait while they come plugging down the street. To answer, "Was you sick?" It can't be beat! And you say, "You go take a back seat. The gang near lost a pal!" Yes, there's worse things than being sick— Rather, getting well!

Exciting indeed. Granton, Wis., prints the following: "Maybe it is possible to telephone to Europe, but what if it? Listening in on a four-party line in one's own neighborhood is just as exciting." Granton News.

Fatuous. "Women always have and always will keep men guessing," declares the Warhead (Kian) Times. "A Warhead merchant employed a homely girl because he thought he could keep her. Within a few months a young man married her for the same reason."

Another "Use" For Barbed Wire. "I reckon," said Farmer Cornstossel, "as how barbed wire makes it impossible for a feller to sit on the fence an' look on."

Cured. "I notice that Aches doesn't go around borin' other people with her ailments as she used to."

"No," she met a man who cured her completely. "A doctor?" "Oh, no. She was telling this man some of her symptoms when he remarked, 'His strange how many of these things afflict people as they begin to grow old.' Since then she has held her tongue about them."—Boston Transcript.

A "Major Operation." "What's the matter, old top? You look sick."

"I've just undergone a serious operation."

"Appendicitis?" "Worse than that. I had my allowance cut off."

Spoiling Her Day Dreams. "Your new stenographer has a far-away look in her eyes."

"So, she has," said Mr. Dubwaite. "I'll have to do something about it."

"What, for instance?" "If she doesn't wake up in a day or two I'm going to tell her, kindly but firmly, that so far as I know her job is not a stepping stone to matrimony or the movies."

Wise Jottings. The more checks a spendthrift has the faster he goes.

It is the things that are made to look at that cost the most.

When the worm does turn it doesn't cause much excitement.

The individual who talks about himself incurs complaints more often than any.

It doesn't require much courage for a husband to call his wife down occasionally. It is a mistake.

Before confiding your secret to a friend it is well to remember that your friend has a friend and your friend's friend has a friend.

## Questions AND Answers

(Any reader can get the answer to any question by writing The Portsmouth Daily Times, Information Bureau, Frederic J. Haskin, Director, Washington, D. C. This office applies strictly to information. The Bureau cannot give advice on legal, medical and financial matters. It does not attempt to settle domestic troubles, nor to undertake exhaustive research on any subject. Write your question plainly and briefly. Give full name and address and enclose two cents in stamps for return postage. All replies are sent direct to the inquirer.)

Q. Has the Chinese writing on the Chinese life-saving stamps any meaning? If so, what is it?—Q. R. S.

A. The Chinese characters on these stamps mean "please help."

Q. Is a stalk of corn growing by itself a weed?—M. F. H.

A. The Department of Agriculture says that when a stalk of corn comes up out of its row, or in such a way as to crowd a crop, or be disfiguring, the stalk is a weed.

Q. How did coco oysters get this name?—I. D. B.

A. This is a name applied to oysters growing near shore where they can easily be obtained by rascals.

Q. Where is vegetable ivory obtained?—C. C.

A. The oquilla nut, the fruit of a species of palm, is known as vegetable ivory, being imported from South America for the manufacture of buttons and the making of various small ornaments.

Q. What is the origin and meaning of "coodle"?—A. C. D.

A. The word "coodle" is derived from "kull" which means "daily hire." It is used to designate laborers drawn from the various Asiatic countries, notably China and India.

Q. Why was John Bunyan imprisoned?—B. G. H.

A. Bunyan was imprisoned for 12 years (1675-1687) though during a large part of the time he was granted much freedom. At the time it was illegal to "conduct divine service except in accordance with the Established Church." Bunyan continued to preach contrary to the law and was confined in Bedford County Jail. He was also imprisoned for 6 months in 1675.

Q. What makes scum on boiling syrup?—B. F. L.

A. The scum which rises to the top of the saucepan used in dissolving sugar over a fire is simply the impurities of the sugar rising to the top of the mass.

Q. What is Fool's Gold, and how can it be told from genuine gold?—I. P. H.

A. The material commonly called fool's gold is iron pyrite, a combination of sulphur and iron in almost equal parts which is used in making sulphuric acid. Iron pyrite can be distinguished from gold by the odor of sulphur which it gives off upon heating.

Q. Are all insects found on plants injurious to them?—M. T.

A. There are many friendly insects, such as ground beetles, lace-wing flies, tachina flies, syrphus flies, and lady-bird beetles. A lady-bird beetle has been known to eat as many as 50 plant lice in a day.

Q. Are there any twins of whom one is a brunette, the other blonde?—L. N.

A. Cases of twins, one being dark, with brown eyes, the other light, with blue eyes, are rather frequent.

Q. When was the opera "William Tell" first produced in America?—B. K.

A. The first production of the opera "William Tell" by Giacomo Rossini in the United States was in New Orleans, December 3, 1842.

Q. Is there an Indian tribe that had a government based on a constitution. If so, does it still operate?

A. The Cherokee adopted a civilized form of government in 1820 and formulated a constitution in 1827. In 1866 they disbanded as a tribe and became citizens of the United States.

In the Army. The army had hundreds of men with peculiar names. One sergeant was named Barkeep and thereby hangs the story.

Sentry—Halt, who is there? Sergeant—Barkeep. Barkeep—That's right, he was being kidded the sentry replied, "Advance Barkeep, and give me your counter, ras."

And Then the Flea Flew. "Why did the fly fly?" "Punna."

"Because the spider spied her."

Charity. John—"Why are you burning so much midnight oil?" George—"Oh, I'm just helping John D. out. I was a poor man myself once."

## New-York-Day-By-Day

BY O. O. McINTYRE

NEW YORK, May 2.—A page from the diary of a modern Samuel Pepys: Lay late and listened to a great rain fall in the city. This day is brought home my new suit, most handsome, and I stood at the mirror wearing it until my wife poked fun at my coat. To breakfast with J. Barnes and O. Morosco there, all talking of this and that and Miss Grace Valentine, the play actress, came and sat with us and spoke wittily of the "dear weeks" wait for his pay he finally went to the docks to meet a vessel, newly come from France, and H. Long, the editor, aboard, and brought me a new tie which will look well with my new suit. Watched awhile the sailor men and a hardy crew, jabbering and happy at their work as I wish I might be.

Home to help hang some pictures and to several places to pay away money and in a side street the Prince of Monaco was pointed out to me and he appears to be a man of great learning and yet I could not help but think that his pelf comes from the misfortune of others.

In the evening to a new eating place called The Florentia and the highest prices ever I paid for that reason the people will take to it. Miss Norma Talmadge was there, as were also L. Steffens, the chronicler, Ben Aji Haggren, the painter, and Mr. Klav, the theatre man. And so home and to bed.

Several victims of a stage star's effort to produce her own play are providing laughs for Broadway. Bess Baer traveled with the company for several weeks to provide quips and quips for dull lines. After an elated wait for his pay he finally wrote to the star: "Dear Miss: I never realized until today that the James brothers had a sister. 'The man who wrote the play borrowed clerk's weekly wage."

There was a Gheno scene at a Fl. Lee sardin. Some East Side children were furnishing Real color. "Now," said the director, "greenbody on his toes. This is the big scene; in fact it's the vortex of the plot."

"Do you know what 'vortex' is, Izzy?" asked the star of a little boy in the group.

"Seitenr, Miss," was the reply. "That's the extra cent you pay for an ice cream cone."

Fawnbrokers report that all of their increased business is not coming from the workers, but from the small shop keeper. One brought a feather bed to be pawned on Park. Row the other day. He explained that he was pawnbroking it so he could pay his clerk's weekly wage.

## TOPICS OF THE TIMES

The Sibley Service, Gallipoli, Ohio. By W. G. SIBLEY

Both Are Penalized. An Ohio writer is in revolt against the belief that it is the woman who pays in such cases as that of Clara Smith and Jake Haman. He says that since the days of Adam and Eve "the man has been made to pay and he will always have to pay." We quote:

"Where did we ever get this monishment about the woman doing all the paying? Women may bestow the supreme favor but the man should remember that it is a favor for which he always pays. The rounder pays in parades, inanity and death. The rounder pays, often with his life—always with his money and his peace of mind."

Kipling has it just right in "Tomlinson," when he says:

The sins that ye do  
 By two and by two,  
 You must answer for  
 One by one.

Both pay. That is the truth. Perhaps the woman pays most wretchedly in litter secrets, lost health and ruined reputation, in the majority of cases, but the man must, and does settle his end of the score, sooner or later, for the immorality he commits.

College Bolshevism. The charge of the President of Valparaiso (Ind.) University that his institution is seething with communism and Bolshevism is sufficiently serious—for the college—but need arouse no serious apprehensions on the part of the public.

Academic freedom, not to say license, goes great lengths in many colleges, where theoretical pronouncements by professors occasionally stir troubles; but any institution which seeks to out American principles of government openly or slyly, carries the remedy of disloyalty. The accused in the present case sees sinister inside influences from which he is preparing to depart after a year's work.

The Problem of Girls. College girls are too much given to short skirts, transparent attire, late hours and expensive idleness, we learn from the heads of six educational institutions. So are shop girls, we dare say.

Is this another reason why the great majority of mothers want boys rather than girls? We have long catalogued the notion that their preference for a man child was born of centuries of oppression and injustice rather than of knowledge of the difficulty of raising daughters right, but we are growing doubtful.

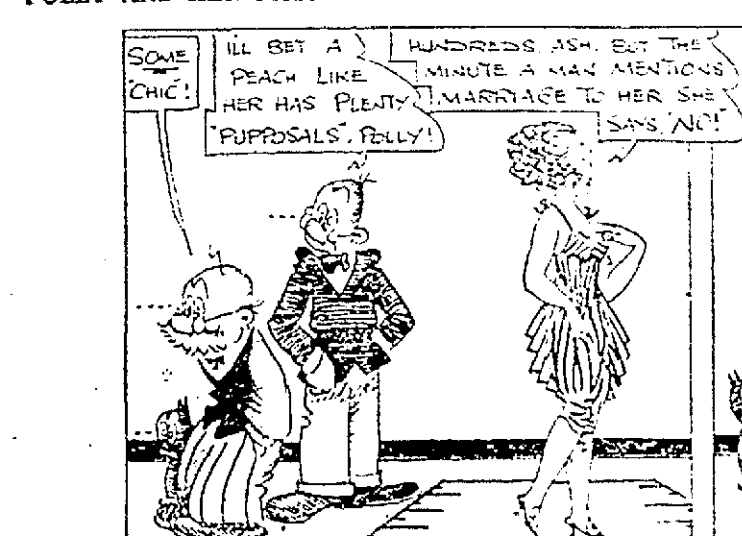

Teachers, we are told, are more expensive than sons, cause more worry and are harder to manage under present social conditions, than boys. They are wild, capricious, more extravagant, more unruly, and less useful than boys. So we are told. We cannot believe this if true, is a sex characteristic. It must be in the "raising." All men of advanced years have observed a marked decline in the efficiency of girls in household duties. The daughters of royalty are better trained in economy, in sewing, in cooking, in general housekeeping, than those of well-to-do families.

We suspect that fathers are more to blame than mothers for this condition. They are prone to make pets of their daughters, to "talk turkey" to their boys and make severe exactions upon them, while humoring and indulging their daughters with every solicitude in their power to supply. After fifteen or eighteen years of that sort of softness on one side and hardness on the other, they are shocked to observe ingratitude, impudence, and folly in their daughters when their sons are turning out all right. Children are to be trained, not pampered.

Knowlton Hanger paid Dr. Meigs \$21.00 that he'd owed him since 1880, and then asked for a beer prescription. Quite a social time was had at the home of Miss Tawney Apple last night. "Close dancin'" an' riddles whiled away 'th' hours.
